Dear Nelson,

I am forwarding this letter from Dr. Morganstein, because I think you ought to see it, especially if you talk over the matter with Allbright, as you may have done already. Probably he has told you that I wrote to him about it.

I must say that while I am perfectly aware of the great advantage it would be for the School to keep you as Director, the considerations on the other side are looking bigger and bigger to me, and at present it looks to me as though you would be much wiser to stick to HUC. But I'm open minded on the matter.

Sincerely,

Miller Burrows
