THE ANNUAL

THE BULLETIN

CABLE ADDRESSES

"ORIENTAL, PHILADELPHIA"
"MONUMENTS, JERUSALEM"

Dec. 8, 1935.

Dear Burrows:

Dr. Morgenstern had already left for New York when your letter arrived concerning the details of Mr. Warburg's offer. Perhaps Mr. Warburg extended the payment of his gift over ten years so as to make it possible for the Rockefeller Foundation to match it dollar for dollar. Mr. Warburg might change the details the arrangement perhaps if proper representations were made to him.

I am delighted to learn that all of the eleven trustees who have thus far been hear from are in favor of my appointment to the Directorship of the Jerusalem School.

I imagine that Dr. Morgenstern has already written you about the recent action of the trustees of the U. of Cinti, who have accepted the invitation extended through Dr. Morgenstern for the U. of C. to become a coporation member of our Schools. We hope to be able to report other results later on in the year, after we have had Sellers down here. I am to address the members of the Taft Museum next month, which will enable me again to publicize the work of the Schools. I am sending copies of the Annual to several people whom I propose to solicit for money for the Schools later on.

I agree that it will be just as well to remove the EI map also. Will you please have the BA and EI maps put aside. Perhaps they can be corrected by hand and subsequently sent to some of the subscribers to the Annual.

There are a number of people, particularly in TJ to whom I should ~~xxxx~~ like to have the Annual sent in recognition of the assistance rendered the expedition. I believe that the names of most of them are on the mailing list of those to whom the Schools have been sending copies of the Annual. Will you let me know please if the following names are on that list: Col. Peake; Col. Cox; Major Kirkbride; Major Jarvis; Mr. Horsfield; Mr. Head; Dr. Magnes; Dr. Schloessinger; Dr. Canaan. Otherwise I shall want to send them copies which I have.

It is not necessary to send me the negatives of the pottery plates. I believe Moon likes to keep them on file.

Sincerely,

NG
